RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
Washington, D.C. 20231

In response to the Office Action of November 2, 2000, and subject to traverse, Applicant elects to prosecute claims 1-30 and 102 in the present application, reserving the right to file divisional applications for the other claims.

Additionally, subject to the reconsideration requested below, Applicant elects the species 1, Figure 4, in the event no generic claim is allowable. The claims readable on the structure shown in Figure 4 are claim 1-4, 6-10, 13-27 and 102.

Applicant respectfully points out the following matters with respect to the Examiner's requirement of election as between the structure of Figure 4 and the structures of Figures 5 and 6.

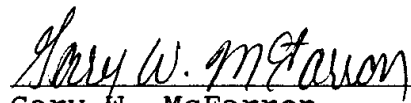

RECEIVED
TECHNOLOGY CENTER
JAN 11 2001

First, it should be pointed out that Figure 4 does not illustrate the structure of claim 5, as suggested on page 3 of the Office Action. Claim 5 requires a support layer of at least two sublayers, which structure is depicted, for example, in Figure 7 and not in Figure 4. Further, all of the claims that read on the structure of Figure 4 also read on the structures of Figures 5 and 6. Accordingly, it may be more efficient to examine both of the structures of Figures 4, 5 and 6 at the same time.

This response is being filed within one month after the due date set forth in the Office Action. Accordingly, a one month extension of time is requested and a check for the appropriate fee is enclosed.

If it is determined that any additional fees are required, please charge Deposit Account No. 50/1039.

Respectfully submitted,

Gary W. McFarron
